

The Cheeping Chicks

Reported by Elijah

All is quiet at St. Anne's Academy, except for a few noisy chicks squeaking away outside the year 4 classroom.

Yes, you heard right chicks, and birds are squeaking all over St. Anne's. The worlds news are full of devastating news, so hearing about such thriving life inside this worldwide pandemic is so encouraging for people who are struggling to get through. I am, and I'm sure many other people are, quite proud our articles are only showing good and happy news that we all need in this desperate time.
